

# PROJECT DELIVERY

## SERVICES GUIDE

### TURNKEY CAPABILITIES

DME Alliance is the leading engineering and construction firm with world-class expertise in biopharm process systems and utilities. We specialize in technology-intensive projects in the process core of R&D, pilot, launch and commercial scale GMP facilities.

Since its inception in 1998, DME Alliance has focused on exclusive service to the global life sciences sector. We deliver exceptional project value through the combination of our signature process technology expertise with turnkey project delivery capabilities.

### PROJECT & CONSTRUCTION MANAGEMENT

DME Alliance leverages in-house process knowledge & experience to quickly zero in on mission-critical user requirements and prioritize project tasks. This allows us to execute tech-heavy projects on the fast-track without sacrificing quality. Our project approach is process-driven and risk-based. This enables best-value turnkey solutions that focus premium resources on essential process requirements and preserve the process design intent throughout the entire project life cycle.

### SUMMARY OF SERVICES

<b>Planning</b>	<b>Execution</b>	<b>Delivery</b>
◆ Preconstruction Planning	◆ Program & Project Management	◆ R&D Facilities & Pilot Plants
◆ Process/Scope Definition	◆ Construction Management	◆ Preclinical Manufacturing
◆ Programming/Feasibility Study	◆ Project Controls	◆ GMP Manufacturing Suites
◆ Risk Evaluation & Analysis	◆ Resource Coordination	◆ Expansions & Renovations
◆ Site Selection & Fit to Concept	◆ Procurement & Expediting	◆ Process System Upgrades
◆ Cost Estimation & Budgeting	◆ Vendor Source Inspection	◆ Plant Shutdown Coordination
◆ Equipment Sourcing Strategies	◆ Quality Surveillance	◆ Compliance Remediation
◆ Master Scheduling & Expediting	◆ Owner's Representatives	◆ Startup & Commissioning
